ENTERED according to the Act of Parliament of Canada, in the year one thousand nine hundred and twelve, by HENRY WILLIAM GENDREAU, at the Department of Agriculture.

ENREGISTRE conformément à l'Acte du Parlement du Canada, l'an mil neuf cent douze, par HENRY WILLIAM GENDREAU, au Ministère de l'Agriculture.

PREFACE

IT is with a great deal of pleasure and some satisfaction that I present to the people of Granby the first "Directory" of their Village. I have for some time been impressed with the necessity of such a guide ; but the lack of house numbers rendered the task almost useless. Now that the work of numbering the houses is completed, I launch the Directory as a sister enterprise, feeling that the fulfilment of these two projects will greatly aid in the future development of our community.

I would say that the utmost care has been exercised in collecting the information contained therein, and it will be found as accurate and as reliable as that contained in any other publication of a similar nature. where the general public has to be depended upon for information.

I take this opportunity to thank those who have co-operated with me in this work, and especially our talented townsman, Mr. M. H. Cox, who so ably and willingly prepared the short historical sketch which follows.

It is my purpose to publish my second Edition in 1914, and I look forward to that time, feeling that this span will mark two years of unprecedented prosperity and industrial development.

Respectfully,

H. W. GENDREAU.

PREFACE

AYANT terminé le numérotage des maisons, c'est avec plaisir et une certaine satisfaction que je présente aux citoyens de Granby, comme une entreprise soeur, le premier Indicateur de leur Village, avec la ferme confiance que la réalisation de ces deux projets aidera à l'avancement de notre localité. Depuis longtemps, je prévoyais l'utilité d'un tel guide, mais faute de numéros, ce projet ne pouvait être exécuté.

Un soin minutieux a été apporté à la compilation des matières qui y sont contenues, et le lecteur peut autant compter sur l'exactitude de ces renseignements que sur toute autre publication de ce genre, dont la source d'information est le peuple.

Je profite de cette occasion pour remercier ceux qui ont coopéré à ce travail, particulièrement notre habile concitoyen, M. M. H. Cox, qui a si bien et si volontairement préparé le résumé historique qui suit.

J'ai l'intention de publier ma deuxième édition en 1914, et j'anticipe que ces deux années marqueront pour Granby une époque de prospérité et de grand développement industriel.

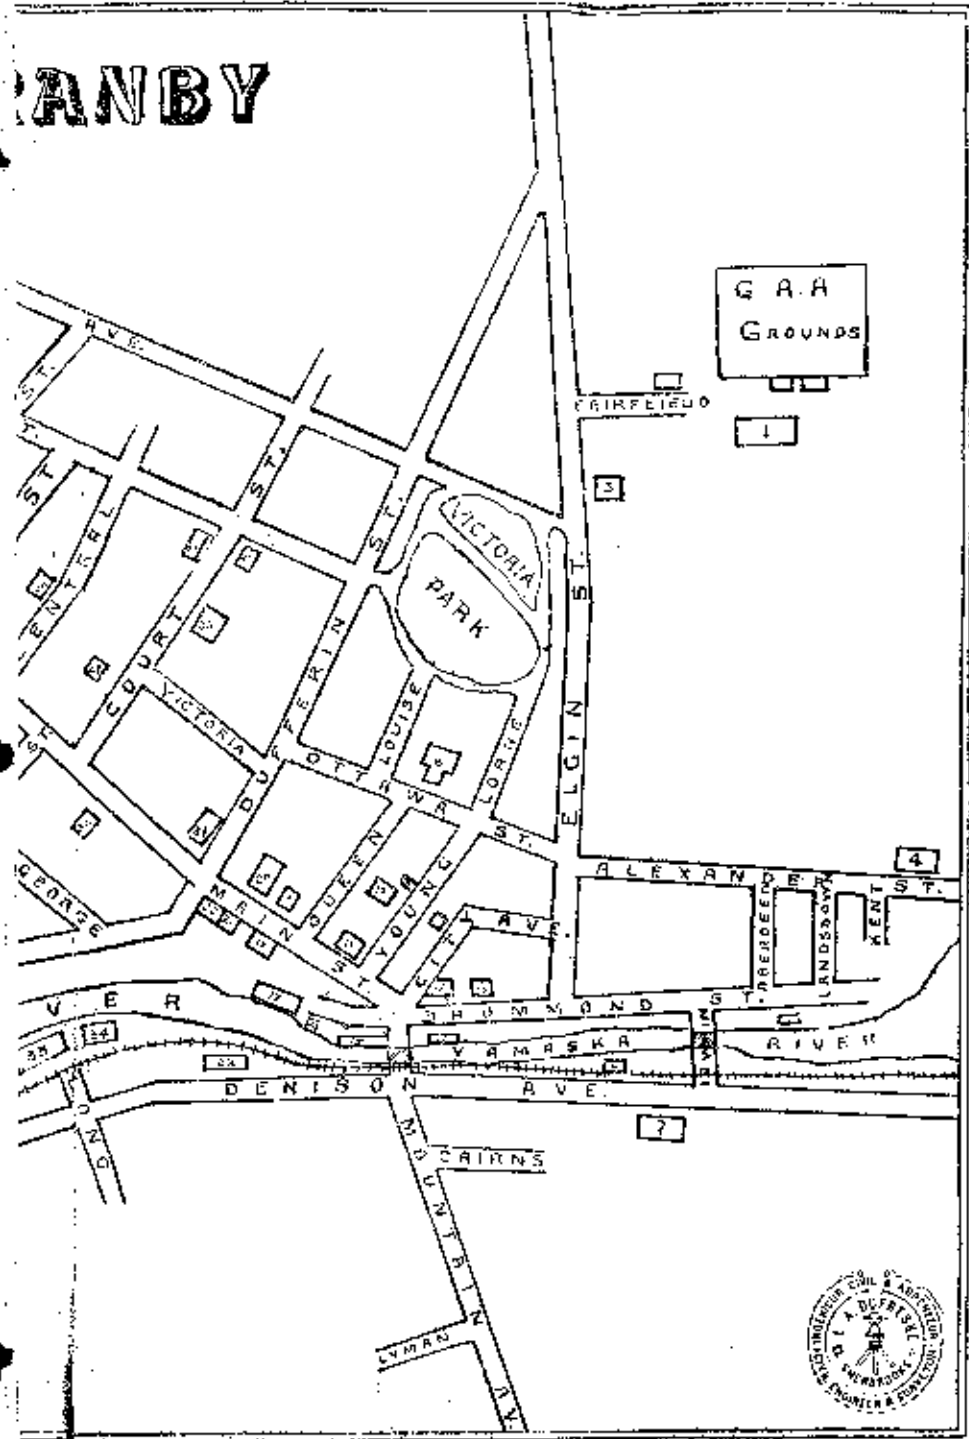

Respectueusement,

IL. W. GENDREAU.

Historical Sketch of Notes Historiques sur Granby

(Written specially for the "Granby
Directory 1912-13")

Every citizen of a prosperous Town or Village should occasionally take a glance back to the starting point,—a glance that must arouse a spirit of thankfulness that the situation has so greatly improved since the pioneer days of his forefathers. In this belief I venture to recail the names and actions of a few of Granby's earliest settlers, to whose efforts, we of the present day are greatly indebted.

But first I must answer the question so frequently asked:—
"How did Granby come by its name?"

It was the writer's good fortune to see a copy of the order, issued by King George III, in the year 1801, setting forth the boundaries of the Townships of Milton and Granby,—the concluding sentence reading as follows:—

Granby

(Écrites spécialement pour l'"Indicateur
de Granby 1912-13")

Chaque citoyen d'une ville ou d'un village prospère devrait, de temps à autres, jeter un regard vers ses origines, un regard qui éveille sa reconnaissance à cause des progrès qui se sont accomplis depuis les jours de colonisation où vivaient ses pères. Ce principe m'autorise à rappeler les noms et les exploits de quelques-uns des premiers colons de Granby, de ces hardis pionniers envers lesquels nous, les citoyens actuels, sommes si lourdement endettés.

D'abord, je dois répondre à la question si fréquemment posée:—
"Comment Granby a-t-il reçu son nom?"

L'auteur de ces lignes a eu le privilège de voir une copie de l'ordre venu du roi Georges III en 1801, marquant les bornes des cantons de Milton et Granby, et dont la dernière phrase se traduit ainsi:

" This Township will forever hereafter continue and remain a township, and by the name of Granby, forever hereafter to be called, known and distinguished".

No reason is given for so naming the Township, but in all the survey documents, it is mentioned as being "commonly called Granby." And the King, prophetically knowing our failing of changing the names of places, wisely resolved that the name of at least one place should not be changed.

It is supposed by those in a position to give a reasonable guess, that the King chose to honor a certain nobleman by the name or title of the " Marquis of Granby," and gave his name to our new township, from which the Village took its name.

I am happy to be able to say that I am not " the oldest inhabitant," but in my early days I became acquainted with several of the earliest settlers, from whom I learned many of the facts here set down. Among the founders of Granby, we find the names of many whose descendants are still taking an active part in the upbuilding of Granby. Among the first settlers inside the bound-

" Ce canton devra dorénavant rester un canton, et le nom de Granby est celui qui servira à le nommer, à le faire connaître et distinguer."

Aucune raison n'explique pourquoi on a ainsi nommé notre canton, mais dans les documents conservés, on en parle comme étant " généralement appelé Granby." Et le roi connaissant par avance notre tendance à changer les noms a résolu que le nom d'au moins un endroit resterait le même.

Il est supposé par certains hommes capables de donner un témoignage raisonnable que le roi choisit ce nom pour honorer un noble s'appelant " Marquis de Granby " ; le nom fut d'abord donné à notre canton, puis à notre village.

Je suis heureux de déclarer que je ne suis pas le " plus ancien habitant," mais dans ma jeunesse, je fis connaissance d'un nombre des premiers colons, desquels j'ai appris plusieurs des faits mentionnés ici. Parmi les fondateurs de Granby, nous trouvons les noms de plusieurs citoyens dont les descendants prennent actuellement une part active dans l'avancement de notre village.

daries of our Corporation, we find the names of Squire Frost, John Wetherby, Samuel Wetherby, John Horner, Peter McLean, J. Garotte and Harlow Miner. They were soon followed by others, who took an active part in starting industries.

The first Hotel was erected by John Wetherby, on the site where now stands the commodious "Granby Hotel." It is on record that Church services were held in a room in that Hotel before the erection of an Episcopal Church; the Rev. Thomas Johnson coming from Abbotsford to officiate. A few years ago, the old hotel was moved back and now forms part of the "J. Bruce Payne Cigar Factory," it being still in good condition, owing to excellent pine lumber, which was very plentiful at that time, having been used in its construction.

There were only four good houses to bear the name of Granby in the year 1829. There were several temporary abodes, hardly worthy the name of "shacks," but the erection of a small saw-mill, by John Horner, gave a supply of lumber, causing respectable dwellings to arise rapidly. The Old Stone Grist

Parmi les noms des premiers colons de notre municipalité nous trouvons ceux de John Wetherby, Squire Frost, Samuel Wetherby, John Horner, Peter McLean, J. Garotte et Harlow Miner. Ceux-ci furent bientôt suivis par d'autres travailleurs qui ont beaucoup fait pour le commerce.

Le premier Hôtel fut érigé par J. Wetherby à l'endroit où s'élève actuellement le joli "Hotel Grauby." On assure que les offices religieux avaient lieu dans une pièce de cet hôtel avant la construction d'une église Episcopale; le rev. Thomas Johnson venait d'Abbotsford pour officier. Quelques années passées, le vieil hôtel fut éloigné et fait maintenant partie de la "Manufacture de Cigares" de M. J. Bruce Payne; cet hôtel est encore en bonne condition, ayant été construit avec d'excellent pin très abondant alors.

On ne comptait que quatre maisons convenables dans Granby en 1829. Il y avait plusieurs habitations temporaires à peine dignes du nom de cabanes, mais la construction de l'humble moulin à scie de J. Horner fournit du bois et permit ainsi d'élever assez rapidement de jolis foyers.

Mill must have been one of the first buildings erected, as it is on record that Peter McLean ground the first grist in 1829. The mill was built with stones from the surrounding hills, and as it is still standing (though not in use) there must have been skilled masons on the job.

In a report made to the Bishop of Quebec, by Archdeacon Mountain in 1830, he being on a visiting tour of the Congregations of the Townships, he said: "In Granby, I preached in a most diminutive school house, where I stood in a corner, in close contact with twenty-five persons, with a chair for a desk."

That diminutive school house stood on the site of the house on Dufferin street, now occupied by Dr. Elder. If we compare it with the "Clara Miner High School," now accommodating all the scholars that wish to attend, coming as they do from all points of the compass, we can form a correct idea of the great change in this environment since the year 1830.

The first Post Master was Squire Frost, followed by Horace Lyman, who held the position for many years in our own day.

Le vieux moulin à farine en pierre doit avoir été une des premières constructions, étant donnée cette déclaration des archives, que Peter McLean a moulu du blé pour la première fois en 1829. Le moulin fut construit avec la pierre des collines avoisinantes, et comme il reste debout, bien qu'il ne serve plus, on tire cette conclusion qu'il doit être l'œuvre d'ouvriers habiles.

Dans un rapport fait en 1830 à l'évêque de Québec par l'archidiacre Mountain, au sujet de ses visites aux congrégations des cantons, celui-ci dit: "A Granby, j'ai prêché dans une chétive école; j'étais debout dans un coin tout près d'un auditoire de 25 personnes, et je n'avais pour chaire, qu'une chaise." Cette chétive école était alors à l'emplacement de la maison occupée aujourd'hui par le Dr Elder, sur la rue Dufferin. Si nous la comparons à la "Clara Miner High School" offrant l'instruction à tous les élèves qui désirent y entrer, nous pouvons juger des progrès de notre village depuis 1830.

Le premier Maître de Poste fut Squire Frost. Horace Lyman lui a succédé; ce dernier a gardé sa position même de notre temps.

About the year 1830, Harlow Miner started in the tanning business in a small way, hand power moving the machinery. The business prospered fairly well and when his son, S. H. C. Miner, took charge, it increased in a remarkable manner, creating a ready market for hemlock bark, to the great benefit of the farmers of this locality. He finally retired from the leather business, and founded the "Granby Rubber Company"; his success in that line being well known throughout the Dominion. And it is also well known, that to him belongs the credit, in a great measure, of Granby's present prosperity.

The first store-keeper in Granby was Francis Gilmour; he also conducted a potash business.

The first newspaper was started in 1855 by Peter Savage. It was called "The Shefford County Advocate." There followed many successors, all in a small way, but at the present time *The Leader-Mail*, a company enterprise, is one of the best equipped offices in the Townships, Mr. George Legge being Managing Editor.

The oldest dwelling house,

Vers 1830, Harlow Miner s'occupa du tannage au moyen de machines à bras. Les affaires prospéraient et quand son fils, S. H. C. Miner, lui succéda, la tannerie fit un progrès remarquable; elle donna naissance à un marché d'écorce de cigüe (pruche) qui fit grand bien aux fermiers de cette localité. M. Miner délaissa finalement le commerce de cuir et fonda la "Granby Rubber Company"; son succès dans cette branche est suffisamment connu de toute la Puissance. Il est aussi connu que Granby lui doit une large part de sa prospérité.

Le premier magasin dans Granby fut ouvert par Francis Gilmour qui s'occupait en même temps du commerce de potasse.

Le premier journal fut publié en 1855 par Peter Savage. On l'appela "The Shefford County Advocate." Il eut plusieurs successeurs de peu d'importance, mais aujourd'hui, le "Leader-Mail" est le fruit d'une des meilleures imprimeries des cantons. M. G. Legge est l'éditeur de ce journal.

Le plus vieux logis de Granby encore habitable est occupé par M. D. Beauvais. Les murs en sont faits de solides madriers de pin

still being in serviceable condition, is now occupied by Mr. D. Beauvais. The walls of it are made of heavy pine plank, covered as usual with boarding and clapboards.

The first dispenser of pills was Dr. Billings, followed by Drs. Abbott, Minckler, Whitcomb, Gilmour, and others. At the present time, six doctors ably serve the suffering citizens.

The first and only railway came into operation in 1860, — Washington Frost acting as Station Agent.

The first Episcopal Church was erected in 1843. Rev. Thomas Johnson had been acting Missionary since 1836. Previous to the building of the Church, services had been held in the Congregational Church. In 1843 Rev. George Slack, M. A., Rural Dean, took charge, followed by Rev. Thomas Machin in 1851, Rev. William Jones in 1857, Rev. Thomas Haslam in 1878, the Venerable Archdeacon W. B. Longhurst in 1880, — the present Incumbent. A fine Parish Hall was built in 1897, and in 1908 a costly brick Church was built; the old one having been taken down. While speaking of the old

recouverts de planches de lambris.

Le premier dispensateur de pilules fut le Dr Billings. Virent ensuite les Docteurs Abbott, Minckler, Whitcomb, Gilmour et autres. Actuellement six médecins soulagent les souffrants.

Le premier et seul chemin de fer fut installé en 1860; Washington Frost fut nommé opérateur.

La première église Épiscopaliennne fut érigée en 1843. Le rev. Thomas Johnson avait depuis 1836 rempli la charge de pasteur. Avant la construction de la dite église, on officiait dans l'église Congrégationelle.

En 1843, le rev. George Slack, M. A., doyen de l'église, entra en fonctions, et fut remplacé par les revs Thomas Machin en 1851, William Jones en 1857, Thomas Haslam en 1878, et le vénérable Archidiacre W. B. Longhurst en 1880. Une chapelle temporaire fut élevée en 1897, et en 1908 une dispendieuse église en brique, l'ancienne ayant été démolie. En parlant de la vieille égli-

Church, it is but right that I should mention the fact, that the Rev. Thomas Johnson purchased ten acres of choice land and deeded it to the Church Society, furnishing the shingles to cover the old Church, when it was being erected. He also gave \$100.00 towards the general expense, a notable contribution from a Missionary.

The old Congregational and Methodist Churches have also given place to new and up-to-date structures, — the former being served at present by the Rev. J. L. Alexander, and the latter by the Rev. D. T. Cummings.

The Catholic Church, erected in 1842, was replaced in 1905, by a most imposing structure of cut stone, that serves as the chief landmark, for miles around.

The first Catholic Missionary was Father Quinn, followed by Rev. Kirtson, Brother St. George, Rev. McAuley, Rev. I. Balthazar, Rev. H. Balthazar, Rev. J. A. Nadeau, and Rev. M. Gill, the present Incumbent, since 1887.

The growth of Granby was not rapid at first. Lack of a railway for many years prevented it. Freighting between Montreal

se, il est juste de mentionner que le rev. Thomas Johnson avait acheté dix acres de beau terrain qu'il passa à la "Church Society" et fournit le bardeau qui la recouvrit. Il donna de plus \$100 pour payer différentes dépenses; cette offrande d'un missionnaire est à remarquer.

Les vieilles églises "Congrégationnelle" et "Méthodiste" ont été également remplacées par des constructions modernes; la première est sous la direction du rév. J. L. Alexander et la seconde sous celle du rév. D. T. Cummings.

L'église catholique érigée en 1842 fut remplacée en 1905 par un imposant édifice en pierre de taille, le plus remarquable des environs.

Le premier curé catholique fut le rev. Père Quinn; vinrent ensuite les révs MM. Kirtson, St. George, McAuley, I. Balthazar, H. Balthazar, J. A. Nadeau et M. Gill, curé actuel, fut nommé en 1887.

L'avancement de Granby ne fut pas au début très rapide, à cause de l'absence de chemin de fer. Le transport entre Montréal

and Sherbrooke was done by team, - Granby being a half-way station. The Government made a fairly good macadam road as far as Granby, which served well to the present day. When the railway did reach the Village, factories began to arise, and at present the road is unable to properly serve the many enterprises; but an Electric Road is promised for the near future. At present the numerous towering chimneys and smoke-stacks serve as exclamation points for the general assertion that Granby is no longer a "back number."

The most notable of our Factories are here set down as they come to mind: The Empire Tobacco Co., The Granby Rubber Co., The Walpole Rubber Co., The Miner Rubber Co., Giddings Ltd. Chair Factory, The Granby Carriage Co., The Granby Elastic Web Co., J. Bruce Payne's Cigar Factory, The Meyer-Thomas Box Factory, The Kent Lumber Co., The Granby Sanitary Plumbing Mfg Co., The Granby Rubber Reclaiming Factory, Barré & Charron Wood-Working Factory, R. B. McComiskey & Co. Comb Factory, The Granby Mfg Co. Comb Fac-

et Sherbrooke se faisait par voiture; Granby était au centre de la distance qui séparait ces deux villes. Le chemin de macadam fait par le gouvernement entre Montréal et Granby a rendu jusqu'à ce jour de grands services. Quand la voie ferrée atteignit le village, des manufactures commencèrent à s'élever et le chemin de fer électrique que l'on projette de construire est nécessaire au succès de nos entreprises. Les nombreuses cheminées de manufactures que rencontre l'œil en approchant notre village prouvent bien que Granby n'est nullement arriéré.

Nommons maintenant nos principales manufactures, à mesure qu'elles se présentent à l'esprit: "The Empire Tobacco Co.," "The Granby Rubber Co.," "The Walpole Rubber Co.," "The Miner Rubber Co.," "Giddings Ltd. Chair Factory," "The Granby Carriage Co.," "The Granby Elastic Web Co.," "La Manufacture de Cigares de J. Bruce Payne," "La Manufacture de Boîtes de Meyer-Thomas," "The Kent Lumber Co.," "The Granby Sanitary Plumbing Mfg. Co.," "The Granby Rubber Reclaiming," "La Menuiserie de Barré

tory. The Harlow Bowker Flour Mill.

Disastrous fires have destroyed much valuable property at different times; notably, the St. Joseph College, the Giddings Chair Factory, the Mullin Block, (in part), the Gulline Collar Factory, the Bruneau Box Factory, and the Dougall Saw Mill. The Giddings Co. quickly erected a much larger building. The Mullin Block was also enlarged, the Bruneau wood building was replaced by a brick building, and St. Joseph College is to be replaced by a greatly enlarged College, during the Summer of 1912.

The Granby Water Works is one of the best in the Townships, being both powerful and pure; the water coming in pipes with great force from Shefford Mountain, four miles distant.

Our Electric Lighting Plant is up-to-date in every particular.

Our macadam Streets and cement Sidewalks are something to be proud of, and the Fire Department is well organized, expensively equipped and efficient in every way.

The names of the leading merchants will be found in this Directory. We are proud of the

& Charron," "La Manufacture de Peignes de R. B. McComeskey & Co.," "The Granby Mfg. Co." et le Moulin à farine de Harlow Bowker."

A différentes époques, des incendies ont détruit des propriétés de valeur, telles : le collège St. Joseph, la "Giddings Chair Factory," une partie de l'édifice Mullin, la "Gulline Collar Factory," la "Manufacture de Boîtes" de M. Bruneau et la scierie de M. Dougall. La compagnie Giddings érigea bientôt une construction beaucoup plus grande que l'ancienne. M. Mullin fit de même; la manufacture en bois de M. Bruneau fut reconstruite en brique et le collège St. Joseph sera remplacé pendant l'été de 1912 par un autre collège beaucoup plus grand que l'ancien.

L'Aqueduc de Granby est un des plus perfectionnés des cantons; l'eau que nous buvons vient forte et pure de la montagne de Shefford dans des tuyaux, de quatre milles de long.

Notre éclairage électrique est moderne.

Nos chemins de macadam et nos trottoirs de ciment méritent que nous en soyons fiers.

fact that several of our stores will compare favorably with city establishments.

The present population of Granby is about 5,000.

Three large Hotels afford first class accommodation for the travelling public: The "Granby," The "Windsor" and The "Union."

A commodious Town Hall occupies a commanding site in the centre of the Village, and but a few steps removed, a three-story brick Post Office fronts on Main and Cowie Streets, the upper stories serving as offices for the Inland Revenue Officials.

On the whole, we believe that the citizens of Granby have reason to be both proud and thankful, -- proud that they had such energetic forefathers, and thankful for the success that has attended their own well-directed efforts.

M. H. COX.

Granby, February, 1912.

Les noms de nos principaux marchands peuvent être trouvés dans cet Indicateur. Nous le disons avec orgueil, plusieurs d'entre nos magasins valent ceux de villes notables.

La population actuelle de Granby est d'environ 5,000 âmes.

Trois grands hôtels, — "Le Granby," "Le Windsor," "L'Union" — tenus d'une manière parfaite accommodent les voyageurs.

Un joli Hôtel de Ville est situé au centre du village; presque en face se trouve le Bureau de Poste, construction à trois étages qui orne le coin des rues Main et Cowie; les étages supérieurs servent d'offices aux employés du revenu de l'intérieur.

Bref, nous croyons que les citoyens de Granby ont raison d'être fiers et reconnaissants; fiers de l'énergie de leurs devanciers, et reconnaissants pour le succès qui a couronné leurs propres efforts.

HISTORICAL NOTES

From an old book bearing the title "Brief History of the Congregational Church of Granby, Co. of Shefford, Province of Quebec, Canada", we glean the following historical facts. Sometime previous to the year 1830, Congregational ministers from the New England States preached in the Eastern Townships, Granby being one of their appointments. The prospect of forming a Church was brought before the Missionary Board of the Congregational Churches of Montreal, and Rev. Daniel Rockwell was appointed as Missionary in the district. During his mission the following persons were organized as a Congregational Church at Granby by the Rev. Ebenezer Dorman, pastor of the Congregational Church in Swanton, Vt., assisted by the said Mr. Rockwell, on the 9th day of February 1830, viz: John Hustall, John Keep, Stephen Hungerford, Wm. Woodward, Gardner Childs, Thomas Hale, Sewell Goodridge, Rhoda Hoskin, Betsey Ryder, Ellen Hale and Nancy Smith. The Articles of Faith and Covenant observed by the Churches in Vermont were adopted. Rev. Daniel Rockwell seems to have been pastor for a year or two. Rev. James Dougherty was the next pastor. He was succeeded by Rev. J. Glead. Next came Rev. H. B. Chapin from West Hampton, Mass. He was pastor during the painful times of the Rebellion, and appears to have been sorely tried with its unfavorable influence on religion. In 1841 he was succeeded by Rev. N. B. Fox, a graduate of Dartmouth College and Andover Seminary, Mass. Under Mr. Fox's ministry many united with the Church. He was

followed by Rev. David Gibb, also a graduate of Dartmouth and Andover. During Mr. Gibb's pastorate, a group of Scotch Presbyterians worshipping in Granby cast in their lot with the Congregationalists and sold their old building.

During the history of the Church which extends upwards of 85 years, there have been several church buildings. The main auditorium of the present building was erected during the pastorate of Rev. R. K. Black, and the adjoining Sunday School Hall was erected in 1906, during the present pastorate.

From these records it is evident that this is the oldest Church in Granby.

GRANBY RUBBERS

WE FIT YOU RIGHT

Most people think of rubbers as "just rubbers." We don't. We think there are no rubbers made equal to

GRANBY RUBBERS

We know about these fine rubbers. We know what good material goes into them, how carefully they are made, and what careful inspection every pair gets.

We are proud to represent the Granby Rubber Company and almost as proud as the manufacturers of the saying, Granby Rubbers "WEAR LIKE IRON."
